## Priorities for next year

- Concentrate on Day Services Modernisation, Education and Travel.
- Work out how we can find out how the Day Services Modernisation is improving people's lives.
- Find out what is happening for people with higher support needs, and how we should be helping them to have a 'fulfilling life' too.
- Ask the LSC how much money there is to spend on courses and how this compares with other Authorities.
- Make sure people go on the new Adult Community Learning skills training.
- Make sure Carers and Service Users are involved in the Travel Action Plan.
- Work out how to make sure the right staff get trained about benefits signposting and work out how to measure that people have got all the benefits they should have.
- Start working with Leisure providers
