Have you had a review?

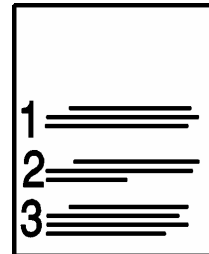

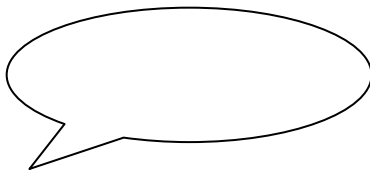

**Have you got a care plan?
This is what a care plan looks like**

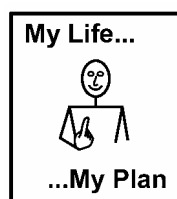

**Do you understand the forms that are
used?**

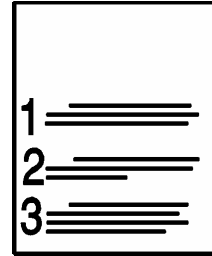

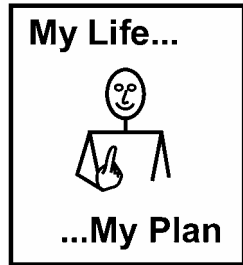

People have asked for their care plans and review forms to be made easier to understand.

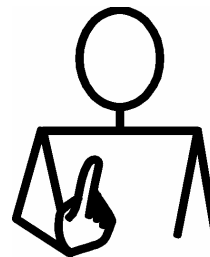

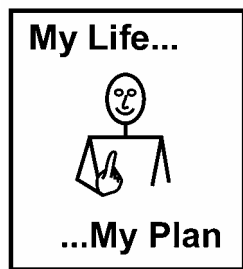

People have asked for a care plan that they can write on.

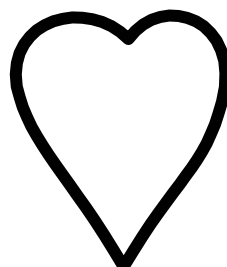

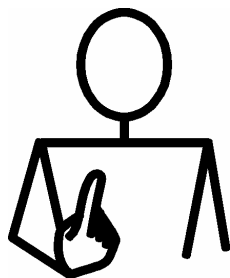

My Life My Plan is the new way of planning

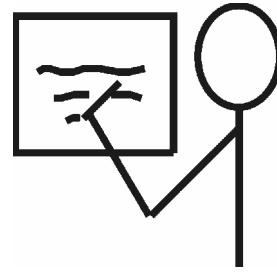

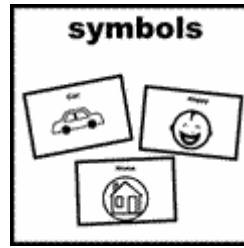

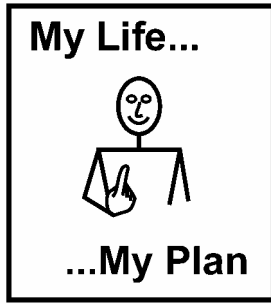

This book - My Life My Plan - is a form that you can write on.

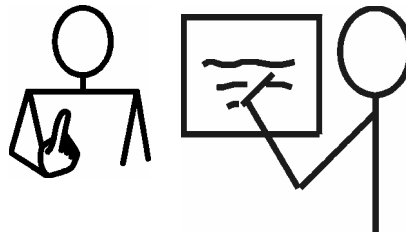

It is about you

It is about what you want in your life.

My Life My Plan has symbols and writing in it and looks like this.

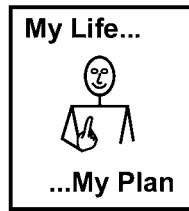

You can write and draw on it.

You can put stickers on it.

You can ask someone to help or write on it for you

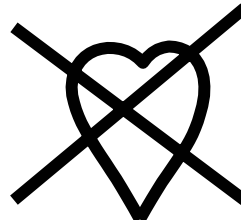

My Life My Plan is about you

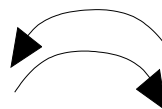

What you can do

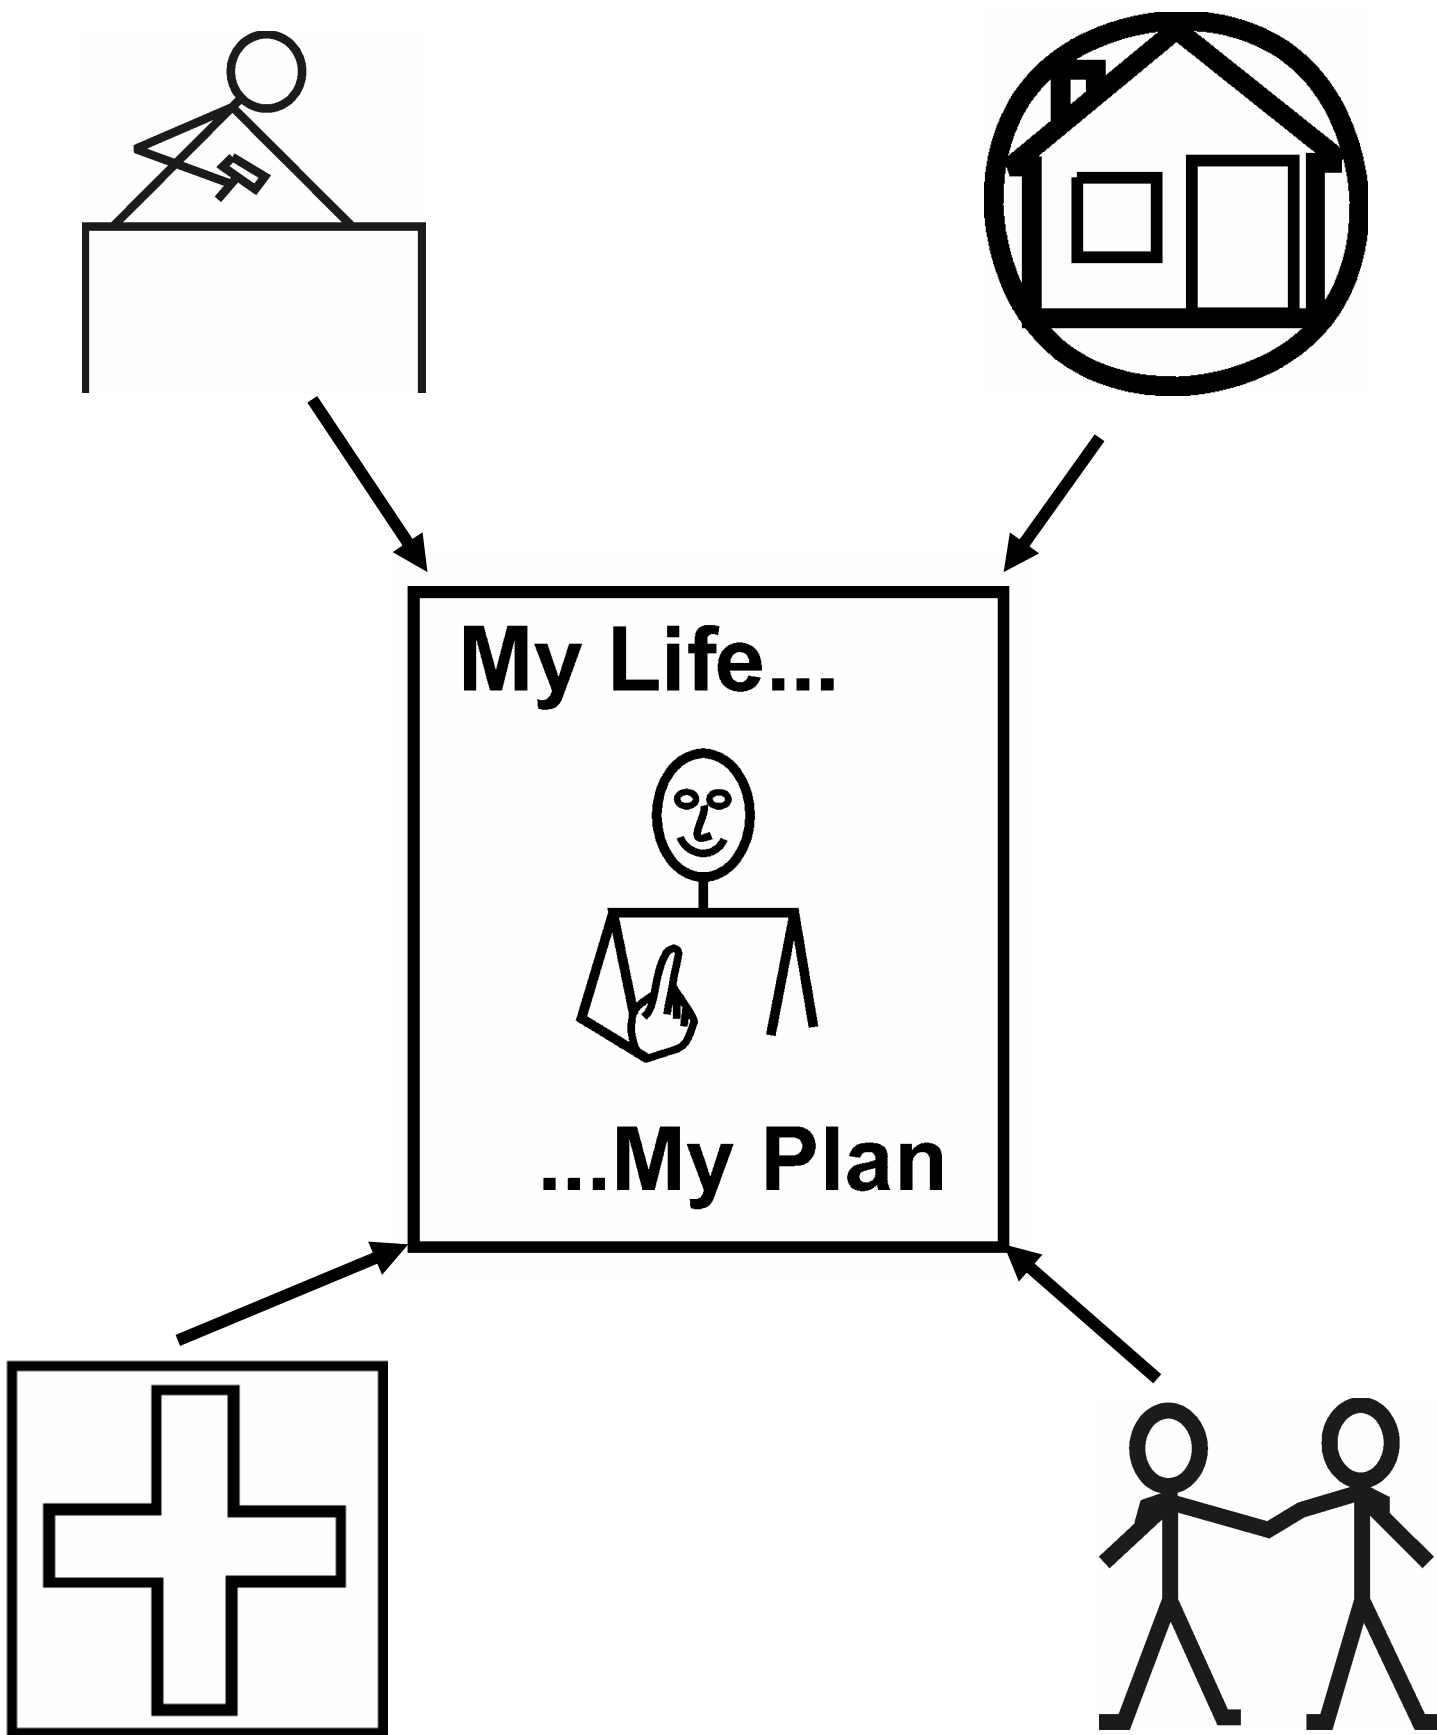

What you like

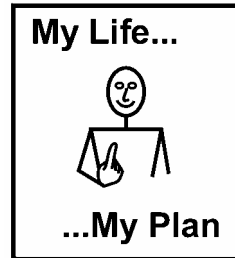

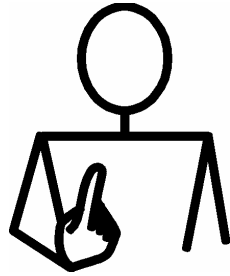

What you don't like

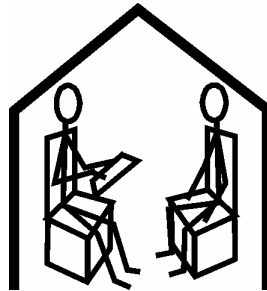

What you want to change in your life

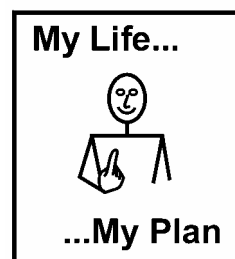

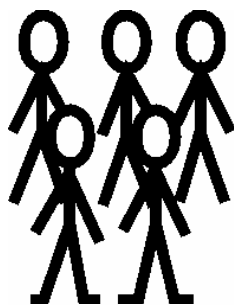

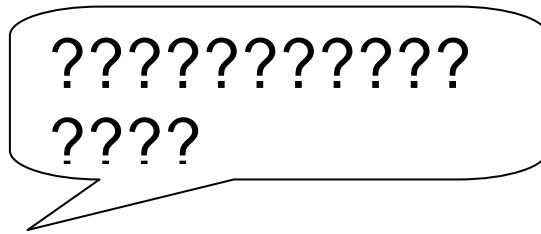

You keep your plan

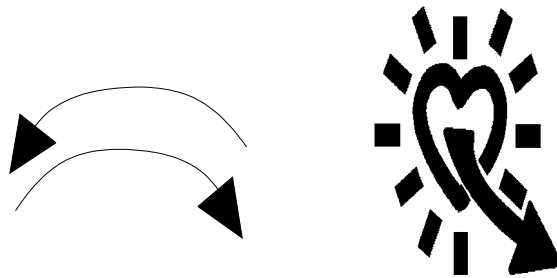

**A copy is kept in a safe place in the
Community Team office.**

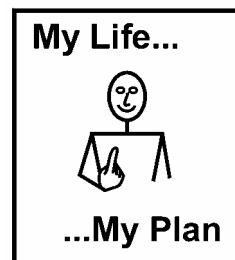

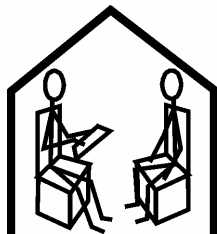

**When people like care managers come to
visit you, they can read this copy.**

Then they won't ask you the same questions again and again.

They can see if the changes you want have happened.

Soon, people from the Community Team will be using My Life My Plan with you instead of the old forms.
