

## Notes from the Devon Learning Disability Partnership Board Communication group

### Welcome and introductions

Sally welcomed everyone to the meeting.

People who came to the meeting said their name and a little bit about themselves.

### Apologies

People who couldn't come to the meeting.

### Information about the group

We had a new member of the group. Sally spoke about what the group does and what we have already spoken about in past meetings. Any questions about the group were answered.

**The group looked at the key priorities for the Communication group** (things we want to make happen)

We had a table which included our key priorities:

- Learning disability Devon website
- Helping people stay safe online (which has a separate group to focus on this)
- Sharing information about the work of the learning disability partnership board
- Wider communication issues

Devon Learning Disability Partnership Board

**We asked the group what priority they would like to work on next**

People agreed that sharing the work of the board was important and that they want to work on this next

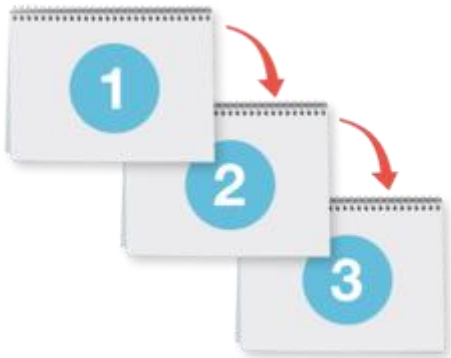

People shared their ideas on how the group will make this priority happen

We filled out the table of key priorities and everyone had a chance to suggest their ideas

Everyone in the group said that they would love to get involved in the tasks that will make our key priority happen.

Such as helping to make a newsletter, video interviews and the planning of these tasks.

### Next Steps

- Go through our action plan and make sure that there is order to it
- Find out who is doing what tasks

The next meeting is Tuesday the 8<sup>th</sup> of June at 1:00pm-2:30pm
